

Final
CHARTER TOWNSHIP OF COMMERCE
DOWNTOWN DEVELOPMENT AUTHORITY
Tuesday, March 17, 2026
Commerce Township Hall
2009 Township Drive
Commerce Township, MI 48390

CALL TO ORDER: The Meeting was called to order by Chairperson Matta at 12:02pm.

Downtown Development Authority:

Present: Debbie Watson, DDA Director
Steve Matta, Chairperson
Tim Hoy, Vice Chairperson
Derek Tuck, Member
Susan Spelker, Member
Jose Mirkin, Member (*exited 12:53pm*)
David Smith, Member
Spencer Schafer, Member (*arrived 12:05pm*)

Absent: Brian Winkler, Member (*excused*)
Larry Gray, Township Supervisor (*excused*)

Also Present: Molly Phillips, DDA Treasurer, Township Treasurer (*arrived 12:08pm*)
Melissa Creech, DDA Secretary, Township Clerk
Jason Mayer, Township Engineer, Giffels-Webster
Chris Martella, Dawda, DDA Attorney
Randy Thomas, Insite Commercial
Dave Campbell, Township Planning Director
Sgt. Matt Leggat, OCSO
Lt. Eric Hix, Substation Commander, OCSO
Pops Spelker, DDA Mascot

Item 1: Approval of Minutes

MOTION by Smith, seconded by Hoy, to approve the DDA Special Meeting Minutes of February 10, 2026. **MOTION CARRIED UNANIMOUSLY**

Item 2.A: Public Comments

None.

Item 2.B: Public Relations Committee

Chairperson Matta – We are going to move up Item 9.b. Public Relations Committee because Jose needs to leave a little early today.

Jose Mirkin – I apologize but I have a conference call at 1:00pm. The Public Relations Committee would like to announce that the 2026 Art Exhibition will take place May 7-18 at the Commerce Township Library. The reception will take place on May 13th from 4:30-7:30pm. As we do every year, I made a commitment from the DDA to support the Art Exhibition by providing gift certificates, 4 at \$25 each for a total of \$100.

Chairperson Matta – Do you need a motion?

Jose Mirkin – Yes, I need a motion to approve \$100.

MOTION by Spelker, supported by Smith, to approve \$100 for the Art Exhibition.

MOTION CARRIED UNANIMOUSLY

Item 3: OCSO Update

Chairperson Matta – We have both of our officers in uniform. Looking dapper, guys.

Lt. Hix and Sgt. Leggat discussed the recent Proud Lake homicide investigation. The victim was not from the area, but data from his phone and Flock cameras allowed for tracking. A vehicle was identified that had travelled through Wixom, and it was determined that the victim was from the Inkster/Romulus area. Suspects then developed from that information and three people were taken into custody. There was no understandable motive.

In addition, the sheriffs discussed a recent robbery and subsequent arrest; the suspect had also committed a robbery in Lyon Township, and his girlfriend turned him in. He ultimately confessed.

The OCSO also assisted with the incident at Temple Israel in West Bloomfield last week.

Item 4: Insite Commercial Report

Randy Thomas – I will let Dave Campbell open this one with an update.

Dave Campbell – I'm honored. The Planning Commission had a meeting last week Monday, and accomplished two significant things for the 5 & Main development. One was they approved, with conditions, the Tenant Handbook, which contains all of the design guidelines, architectural standards, material standards, signage and landscaping for the entire development. The Planning Commission approved that with conditions for some refinement that we're going to work on in the coming weeks and months.

And then once the Tenant Handbook was approved, then the Planning Commission approved, with conditions, Building G, or what they've been calling the shoppette. This is the building just to the west of the Dort Financial Credit Union. I think Deb's going to pull it up on the screen here. It's a five-tenant building with a drive-thru national coffee user on one side, and a nice restaurant on the other side. I don't know that they're advertising the name brands yet.

The Aikens team is saying they've already got leases teed up with both of those, the coffee shop and the restaurant, and the deal is that they're supposed to hand them the keys to a brand new building by the end of this year. So, it's a big step to get it approved on the Township side, and then hopefully they're going to get it built this year.

As I mentioned, the Planning Commission did have some conditions for the approval of Building G. We argued more than we probably should have about the width of the parking spaces for Building G, but the width of the parking spaces is significant because that same width would essentially be applied across all of 5 & Main, and they've laid out the site assuming 9-foot parking spaces. Commerce Township typically requires 10-foot parking spaces, but where we landed was allowing the 9-foot spaces for Building G and for 5 & Main so long as they double stripe the spaces. I'm sure we've all parked in parking lots where they have double striped spaces, which kind of helps guide your car in a little bit better and then creates kind of that neutral buffer zone on either side of you. So that was something of a compromise for Building G and by extension, also for 5 & Main.

The building itself, the Planning Commission thought it looked great. In the opinion of the Planning Commission, the Aikens team, to their credit, really stepped up in terms of building materials, architecture, and landscaping too. The landscaping is going to be nice, particularly out along Pontiac Trail. The back of the building will face Pontiac Trail, so they kind of had to dress up the back of the building so it doesn't look like the back of a building, and part of that is with the architecture, they added some windows, and then the landscaping.

So, we hope it's going to be a really good-looking site, a really good-looking building, and will kind of be the template for what the rest of 5 & Main is going to look like. Hopefully that's all good news and hopefully that allows Bruce to come to the Township Board. My understanding is that he will be at their April meeting seeking an extension for the Library parcel. Part of his pitch to the Township Board for that extension is all of the progress that's being made with Building G being approved, with the traffic signal up and running, and with Dort Financial coming out of the ground. So, hopefully it'll have a good outcome with the Township Board at the April meeting.

Chairperson Matta – So the top photo here is the north side of the building, is that right?

Dave Campbell – I would say the north and west sides. What's most prominent on that top picture is the entry to the restaurant. And then in between I think is still to be determined. He's talked about a spa, he's talked about a Pilates place, he's talked about a dog groomer. But then on the far end of that top picture is the drive-thru coffee shop.

Discussions continued regarding the layout, elevations and design of Building G.

David Smith – Since we're talking about parcels out there, did I read something that the storm system is too high?

Jason Mayer – For the shoppette, yes, there are some issues with the storm sewer at 5 & Main.

Jose Mirkin – Dave, when is construction starting?

Dave Campbell – I don't know if they have a firm date yet, other than to say they want to have it completed by the end of the year. So, I would hope construction is going to start in spring or early summer.

Derek Tuck – When you say complete, is that white box or they're in there?

Randy Thomas – He will deliver the space to them.

Dave Campbell – White box.

Chairperson Matta – Jason, have they solved the problem with the storm system?

Jason Mayer – There are probably about six sections of storm sewer that were not installed properly because they went off the as-builts. Some sections are too high. The storm sewer to their property was a half foot high. On Pad A it is 6 to 12 inches too high. So, Continental wrote a letter to the contractor telling them to fix all of the issues. That's where we are at right now. I don't know what the resolution is, but they are out there working on storm sewer right now. My inspector said they're lowering two catch basins, but it involves PEA, Aikens, Continental, the contractor and us reviewing everything. They did put a temporary retention pond on the plans for this site until the property to the north gets developed, and I think that was partially due to the storm sewer being too high on one side of it. I don't have the final answer yet.

Discussions continued regarding the storm system issues.

Dave Campbell – The other thing that's happening as part of Building G is that they are putting in the base course for Main Street, which is going to be the east/west road that punches out to Martin Parkway, between the big roundabout at Pontiac Trail and the roundabout at Library Drive. That would be the boulevard section of our Parkway, so it's going to be a right-in/right-out driveway along the east side of Martin Parkway.

Chairperson Matta – Okay, well we will continue with the Insite Commercial report, Randy.

Randy Thomas –

- Phase II, we extended the option to August, so I have nothing to report on that.
- I can tell you with the market that it is moving slow. However, another player is coming to town. I would say they're substantial. They're touring later today. They're looking at three sites, with 5 & Main being their main interest. They're going to do 6 to 8 stores in the area. It's something that Aikens is looking at. It's an organic grocery concept, much like we've been talking about.

Director Watson – Would it still be around the same square footage?

Randy Thomas – Roughly, yes. And this would be a lease deal. The dynamics of this deal are dramatically different. We're not at a deal point with the new user yet, but we strongly anticipate that this will be high on the list. I'll know more in the next 10 days.

- Parcel F: In front of the Township Hall; nothing really happened in the last month.
- Parcel J1: We have new signage being added indicating that the drive-thru is possible. There is a user that has come to the market. They came into our office yesterday. We took them down to the site because they're looking for a drive-thru. They're going to do their evaluation.
- Parcel M: (Pad A) I am getting phone calls, driven mostly by the broker market. I think with the fact that he's doing the shoppette, word is out that things are happening. It has increased more traffic for us.

Item 5: Attorney's Report

Attorney Martella – I have a few things to report. The Phase II amendment was executed. I did have a long conversation with Dawn about Pad A. She brought up the Planning Commission approval of the development standards. I asked her for a copy. Now we have an idea of what they're asking for with the entire development scheme. And now, because we are contemplating staying in the association, it now affects us. One thing I was told they were going to bring up at Planning was the issues of maintaining their number of drive-thru's, whether it be three or four, while we keep ours for Pad A.

Dave Campbell – It was only brought up in the context of, there will be a drive-thru with this building, but it wasn't brought up in the context of the number of drive-thru's everybody will have after using this one.

Attorney Martella – All right. The storm grade issues on Pad A; thank you, Jason, for bringing that up. When I spoke to Dawn, it had gotten back to her that there were some sewer main issues. My stance is, get the storm sewer fixed the way it needs to be. It needs to be at grade. Jason is handling it so I will defer to the experts on such things.

We will have more to report next month about what the association looks like and how it factors into keeping Pad A in, or taking it out.

Director Watson – Dave or Chris, is Pad A guaranteed a drive-thru, despite whatever else happens in 5 & Main?

Chairperson Matta – I thought we discussed that last time and we said it was guaranteed, and it did not count toward their three or four, or whatever they have.

Attorney Martella – Pad A gets it. If we stay in the association, it just has to be clear that it does not count against them.

Director Watson – I feel like it would be beneficial to have a discussion briefly with the Planning Commission and just make sure we have that on record that they understand the number of drive-thru's that 5 & Main gets total, and Pad A is one of them.

Dave Campbell – From the Township's perspective and the Planning Commission's perspective, yes, Pad A can have a drive-thru. What's maybe out of the Planning Commission's control is whether this drive-thru is still up for negotiation somehow with the developer, between the developer and the future owner of Pad A. I guess there's a public side and a private side answer to that question. We can make it clear to the Planning Commission that this is what was always approved and envisioned with the overall development plan for 5 & Main.

Attorney Martella – Bruce's counsel wants to make sure that is clear. For Pad A, there was always a condition that it had its own drive-thru. And, whatever that count is, that stays. Pad A was never part of that count; it was always in addition to.

Item 6: Director's Report

Director Watson – Dave, what were the other items that the Planning work group would be working on besides the parking widths?

Dave Campbell – Parking widths have been sorted out. There were some ...

Chairperson Matta – Definitions, right?

Dave Campbell – Yes. One example is, the Tenant Handbook speaks a lot to the building material standards for "storefronts". But it wasn't really clear in the Tenant Handbook, what is meant by a "storefront". Do we mean just the portions of the building that are publicly accessible, or do we mean all four sides of every building?

Chairperson Matta – Yes, because if you look at the photos, on Pontiac Trail, that's the back of the building so to speak.

Dave Campbell – Right, and that's for Building G specifically. We want to know what they mean by "storefront" for the entire development. I think what the development team is going to provide is an exhibit that would go with the Tenant Handbook that redlines, these are sides of the building that we consider "storefront". There are some areas where there's something of a loading zone alcove. I think it's reasonable that the Township wouldn't expect a loading zone alcove to be pretty with brick and stone, like the U-shaped building where the market is going to be. Within that U, that's a truck loading zone; I would think that material standards might be lesser inside there than along the outside of the building.

Chairperson Matta – Sure, it's not very visible at all.

Dave Campbell – Right, so that’s where we want a better definition of what do we mean by “storefront”. That’s something that the developer and a work group of three members of the Planning Commission are going to nail down. There was also some discrepancy about how they measure their wall signage, whether it was a percentage of the building versus the linear foot of the building space. So, we’ll get that figured out as well.

Chairperson Matta – And I remember in the minutes there was some talk about what they had done in Rochester Village, and I guess there has been some variance on that at some point in time. They got larger as they went on and renewed tenants.

Dave Campbell – As far as signage, yes, they did say that. And I think it’s reasonable to assume that 5 & Main, as the years go by, will evolve and things will change. I mean things like building materials; the materials everybody likes this year might be different that what people like 20 years from now.

Director Watson – Yes, and despite their pushback, they really lowered their EIFS to 10%, so that’s nice.

Dave Campbell – Yes, the Planning Commission wants to avoid EIFS. It’s a glorified Styrofoam and in our experience, it doesn’t hold up well in Michigan. They were hoping to use a lot more of it in 5 & Main, and what they’ve now said in the Tenant Handbook is that it will not be more than 10% of any building elevation. They will be able to use it for more decorative purposes, such as cornices, but it can’t be the primary material.

Director Watson – Well I just have to say, I think they were a great team when they presented to the Planning Commission. They did very well.

Dave Campbell – It was a very good presentation, and to their credit, from where we thought Building G was going to be to what they came back with, it was a very significant improvement.

Chairperson Matta – And certainly the photos are what we probably all envisioned. It’s high-end and very classy. It looks great and it’s really exciting.

Dave Campbell – So we hope that high-end classiness then translates across the entire development.

Director Watson – Thank you for that clarification. I know Continental is awaiting a decision from MSHDA. Have you heard from them?

Dave Campbell – I have not. I know you sent an email. I do want to check in with their Brownfield consultant and get an answer. When I do, I’ll relay that to you.

Director Watson – Thank you.

Spencer Schafer – Who are they using as their Brownfield consultant?

Dave Campbell – His name is Jared Belka. He’s a lawyer. He’s out on the west side of the state.

Director Watson – Thank you. So, I did send the Planning Commission packet to everyone via email. Just one last thing, the Martin Parkway Adopt-A-Road cleanup will be on Saturday, April 18th. We are really only out there about an hour. Jason, how many people do we prefer to see, 8-10?

Jason Mayer – Yes, 8-10 works.

Director Watson – Okay. So, if you can join us, we will send out details by email. Just let us know.

Director Watson's written report of March 11th was included in the Board's agenda packet, and is included below, along with any relevant updates.

I. *Updates on Developments* – Please refer to the Insite Report and the Planning Director's Report for additional information.

- *5 & Main –*
 - *The 5 & Main team presented their Tenant Handbook and the site plan for Building G, aka the shopette, at the March 9th Planning Commission meeting. Both proposals were approved with conditions and a few items will be worked on administratively with a Planning Commission work group.*
 - *They continue grading on the Phase I site*
 - *The Phase II extension request was approved through August 20, 2026.*
 - *The gourmet market continues to negotiate terms with Bruce regarding their real estate purchase. The Library parcel extension expires Apr. 30, 2026.*
 - *Springs at 5 & Main; Continental awaits a final decision this month from MSHDA regarding their Brownfield Plan proposal.*
 - *Construction is progressing at Dort Federal Credit Union. They estimate completion by Fall 2026.*
- *LaFontaine Automotive Group (LAG) – Pontiac Trail & Haggerty; Nothing new to report.*
- *Parcel F / Unit 7, in front of the Township Hall – Nothing new to report.*
- *Parcel JI, Haggerty & Oakley Park – Nothing new to report.*
- *Parcels M & N (or Pad A & Pad B) – Randy Thomas is actively marketing these parcels. Attorney Martella is working through the process to acquire the deed for Pad A and he continues to review options with the DDA Board regarding the condominium association.*

II. *MTT Judgments* – As updates are available, reports are given at the DDA meeting.

III. *Commerce Towne Place HOA Items* –

- A. *Budget – The 2026 CTP budget was approved.*
- B. *Dues – All dues are current.*
- C. *Tax Forms & Reports – Nothing new to report.*
- D. *Lighting/Electrical – Shaw, Eric Peterson, Adam Dornton, BrightSource, Rich Walton*
 - *Our lighting order has been received and supplies should be sufficient at this time.*
 - *Shaw continues to be prompt in addressing any issues.*
 - *We received payment for the most recent light pole claim for an incident at the Oakley Park roundabout, \$9679.98.*
 - *Another claim is in process for a pole down at the Township roundabout for an accident that occurred on Feb. 27th.*

- E. *Landscaping, Maintenance & Trails – United Lawnscape, Tara Marquart; Rousseaux's Excavating, Mark Rousseaux*
- *I met with Tara on March 11th to review service details and landscaping projects planned for the Spring season.*
 - *The insurance claim for a large evergreen tree that was taken down in the Township roundabout has been reduced to \$5,362.96 and payment is being sent. This was reduced by about \$3,000 which was explained as depreciation, along with denial of the admin fee and other adjustments.*
 - *Lake Trail, between Avalon & Walmart, remains closed until further notice. The closure is posted on the Township website.*
- F. *Irrigation – Michigan Automatic Sprinkler (MAS)*
- *The system is scheduled to be opened on May 2nd.*

IV. Other

- *We are gearing up for Spring and looking forward to warmer weather!*
- *The Martin Parkway Adopt-a-Road cleanup, by Friends of Larry Gray, is scheduled for Saturday, April 18, 2026. Additional information will be circulated via email. If you can make it, we look forward to seeing you there!*

Director Watson – I will defer to Missy for the Township Board update in Larry's absence.

Township Board Update:

Secretary/Clerk Creech –

- We had three public hearings for establishment of Special Assessment Districts (SADs); Island Club Paving, Sidewalk Repair #1, and Special Projects No. 55. They were all approved and they will come back in April for their roll resolution which is the final step in that process.
- We approved two contractors for two of the SADs, Island Club Paving and the Sidewalk Repair.
- We approved the Great Lakes Water Authority contract for another four years, and the max day peak hour values in the contract represent reductions from the previous contract, so that's good.
- We approved an interlocal agreement between Commerce and Oakland County for the Fire Department to continue using their radio systems. They're upgrading it, so it was a formality.
- We had two ordinance amendments regarding the sewer and water operations. We introduced them last month and they were approved this month.
- We discussed the pathway plan. The goal is to have it on the November ballot. I believe it is coming back in April for the Board to approve the language to be sent to Oakland County.
- We approved the beginning of the design and bid process to install 13 permanent generators at our remaining pump stations that don't currently have generators.
- We appointed Jay James as the Township Cross Control Program Manager, replacing WRC.
- We approved the municipal advisor letter of engagement for pathways project bond issuance.
- And Jay gave us an update on the water main break.
- We also held closed session.

David Smith – How is the water main break coming along?

Secretary/Clerk Creech – I don't have those notes with me.

David Smith – It's just not fixed yet.

Chairperson Matta – It's going to be a while.

Treasurer Phillips – They found more issues.

Discussions continued regarding the water main break.

Dave Campbell – I think we've reaffirmed that the water storage tank that the Township put in 7 or 8 years ago was the best thing the Township ever did.

Item 7: Engineer's Report

Jason Mayer – I think we've talked about Pad G and the storm sewer issues at Springs, unless anyone has any other questions.

The Haggerty Pump Station – We're trying to do the last run across the wetlands. We had a geotechnical engineer out there with a drill rig and they could not drive onto the ice. So, we had our surveyors go out and get as far as they could in the pond. I think we have a route that works. We are working with the contractor to figure out where we would lay out the pipe and see if there are any price changes. I'm waiting on information back from the contractor. So, Debbie, I know you want to get the path reopened.

Director Watson – That's okay. No one is complaining.

Jason Mayer – We were waiting for it to freeze so we could drive a drill rig onto it, and now we're waiting for it to thaw so we can get a boat out there.

Director Watson – You need an amphibious vehicle.

Chairperson Matta – The weather is not cooperative.

Jason Mayer – We will figure it out soon.

Director Watson – Thank you, Jason.

Item 8: Planning Director's Report

Chairperson Matta – Well, you've been center of attention for all good reasons.

Dave Campbell – We get asked about the United Artists Theater. It has been sold. We have not gotten any confirmation on what the new owner wants to do with it. We are hearing things in the Planning Department, and Randy is hearing some things on his side. What keeps coming up is some sort of a banquet/wedding facility. We had a contractor call and ask what, if any, permits he would need to pull in order to pull out all of the tiered theater seating and level out the floors.

Chairperson Matta – Does that place have a liquor license?

Dave Campbell – I don't think so.

Secretary/Clerk Creech – No.

Dave Campbell – You may have noticed that the Township installed a banner on the M-5 bridge honoring our hometown goalie on the U.S. hockey team. The banner was sagging under its own weight. We picked the worst week to hang a banner, with the crazy wind. The banner is just getting thrashed up there, to the point that the Fire Department is going to take it down on Thursday. It's starting to fail. The Township will find a better spot for it. We were all rookies at trying to hang a banner over a 6-lane highway, and we all learned a lot of lessons. We've talked about moving it to the Richardson Center; maybe hanging it from the fence around the pickleball courts.

Chairperson Matta – Did I read that Uptown and Zerbo's are sold?

Dave Campbell – Yes, that's still in process.

Secretary/Clerk Creech – They transferred the liquor license already.

Discussions continued.

David Smith also inquired about the Bogie Lake Residential project and the fire suppression for the homes, which is required due to there being only one ingress/egress point. Dave Campbell discussed the Fire Code and the points of access. He added that if they had done less than 30 homes in the project, they would not have had to fire suppress. It will be the first residential development in Commerce Township with fire suppression inside each house.

Item 9: Committee Reports

A. Finance Committee –

Chairperson Matta – Susan, are you off of this now?

Susan Spelker – I'm done.

Treasurer Phillips – I guess it's me. Nothing going on other than towards the end of this month, I will recalculate the amount that we need to take. I think we were approved for up to \$2 million to borrow from the Township. It's probably going to be closer to \$1.7 and we will be fine. I will make those transfers in time and get everything signed for the debt payment that's due April 1st, which means it's actually due March 31st.

Director Watson – So I sign that, and Larry?

Treasurer Phillips – Yes.

Director Watson – With him not in the office...

Treasurer Phillips – I can probably sign it on behalf of the Township.

Director Watson – Okay, great.

David Smith discussed interest rates with Treasurer Phillips.

- B. Public Relations Committee – Jose Mirkin – See Item 2.B.
- C. Marketing Committee – David Smith – Happy St. Patrick’s Day! I think we have discussed everything we can. The only thing I’m concerned with on Pad A is the storm sewer issue, but I think that will be taken care of.

Chairperson Matta – That seems like an expensive problem for the contractor. What about a time frame?

Jason Mayer – We are looking at what exactly needs to be fixed. I know at Pad A, we can just lower the pipe that is the lead to our site. That was the main one I was looking at.

Discussion continued regarding the storm system for the shoppette.

David Smith also discussed the design of the roundabout planned for Richardson and Martin, which is near his building. He wanted to clarify that there is an overflow pipe that extends from his corner, across the road and outlets into Lower Straits Lake. He wants to make sure they don’t somehow miss that in the design process.

David Smith also inquired about the status of the option on the Library parcel. Director Watson stated that the request for an extension still needs to go to the Township Board in April. Randy Thomas confirmed, and added that Phase II was extended until August 20th.

Discussions continued regarding the number of restaurants that might be in 5 & Main, and the number of liquor licenses.

Item 10: Approval of Warrants and/or Carryovers, Add-ons, Revenue & Expenditure
MOTION by Spelker, seconded by Hoy, to approve the Warrants and/or Carryovers, Add-ons and the Revenue & Expenditure Report. **MOTION CARRIED UNANIMOUSLY**

Item 11: Other Matters
None.

Item 12: Adjournment

- Next regular meeting is April 21, 2026, which will be an Informational Meeting.

MOTION by Smith, seconded by Hoy, to adjourn the meeting at 1:02pm.
MOTION CARRIED UNANIMOUSLY

Melissa Creech
DDA Secretary
